

Airport Information

Owen Sound (Billy Bishop) Regional Airport

The **Owen Sound (Billy Bishop) Regional Airport** was certified on May 26th, 1993 with *Transport Canada*. It is located in beautiful Grey County 3.8 km East of Owen Sound on Highway 26. The Airport is used by companies such as Air Georgian/UPS, the Coast Guard, Air Ambulance and Search and Rescue.

The terminal building is one of the most modern municipal terminals in the Province of Ontario. To make our site a complete aero-support facility, the Airport is also home to Guy Doherty Aircraft Maintenance, Aeroplane Sales & Consulting, Billy Bishop Flying Club, and Plane Fun Inc. The general aviation area contains private hangars, built on city-leased land, which are available for lease. There is the potential for expansion. We also have some fully serviced land available for industry or business.

The general public is welcome to visit our public lounge and watch a wide variety of aircraft take off and land. The two levels of the airport are available to rent for company or private functions.
